## Letter of Support

Dear Dr. Rabitsch, Dear Armin,

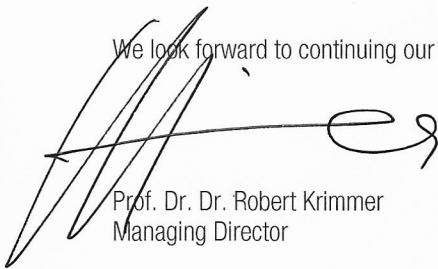

As managing director of E-Voting.CC GmbH I'm happy to confirm that we fully support Election-Watch.EU in its undertaking of applying for an European AI fund project on 'Elections and AI'.

E-Voting.CC GmbH is a leading think tank on the verge of technology and elections and thus has a natural interest in how AI will impact the conduct and perception of elections as the key decision instrument in established democracies.

Based on our collaboration together with Memo98 in drafting and editing the UNESCO/UNDP Handbook for Election Practitioner's on Internet, AI and Social Media, we have no doubt that also this project proposal will become a huge success. We are even so committed that we are willing to explore the possibility of signing a consortium agreement including joint and several liability should this be a necessity to beneficial to implement the project.

Please let us know in case you have any further questions and contact me on my mobile at +372 530 92522.

We look forward to continuing our fruitful collaboration,

Prof. Dr. Dr. Robert Krimmer  
Managing Director
